Murder Most Florid - How plants help solve crime!

An Illustrated Talk by Mark Spencer

Tuesday 9th April 2024

Plants can be silent witnesses to crimes. Their presence in many crime scenes can help an investigator identify a suspect or locate a victim. Apparently mundane plants such as brambles and nettles can provide valuable insights into when a crime was committed. Fragments of leaves and seeds embedded in soil on the footwear of a suspect can place them at the scene.

**Talks are held in The Public Hall, West Street,
Liskeard PL14 6BW at 7.30 p.m.**

Refreshments served from 7.00 pm

Non-members (£8) are always welcome.
